

# AQUAMATE

## COLD BEVERAGE DISPENSER

## CARE & HANDLING RECOMMENDATIONS

### Features:

- Constructed of BPA-free Tritan™ plastic and stainless steel
- For commercial use
- Dishwasher safe container

### Usage:

- Wash parts before first use. \*After washing, make sure that the spigot is tightened on the container.
- To add contents, remove lid and infuser tube.
- Fill the container with a cold beverage, and fill infuser if desired.
- Attach infuser tube to lid, and place lid on container.
- Dispense beverage by using the spigot.

### Cleaning:

- The cold beverage container, infuser tube, and stainless spigot are dishwasher safe.
- Parts that require handwashing include the lid, base, and ice tube. **For proper cleaning, make sure to remove the spigot and separate the two containers so that moisture doesn't get trapped inside.**
- Hand washing will prolong the appearance of the container and minimize water spotting.
- Wipe the exterior with a soft damp cloth to remove water spots.
- Do not use harsh cleansers, abrasives or solvents.
- Avoid citrus based cleaners.
- Remove and clean spigot frequently per the diagram.

### Storage:

- Store with lid off in a cool, dry place.
