

Digital Pocket Thermometer BG 368

With this pocket thermometer, you have bought an electronic precision device for measuring the current temperature as well as the maximum and minimum temperature.

Features:

- Current temperature, MAX/MIN/HOLD
- With probe 70 mm
- Waterproof
- For household, business and hobby, also for food checks (acc. to HACCP)
- Battery included

Specification:

Measuring range: -40°C to +200°C (-40°F to 392°F)
Operating temperature: -20°C to +50°C (-4°F to 122°F)
Resolution: 0.1 °C (0.1°F)
Battery: 1.5 V button cell
Auto-OFF-function: after 10 minutes

How to use:

- Turn on the device by pressing the ON/OFF-key once.
- The display shows the currently measured temperature. The sensor is located in the point of the probe. The temperature unit can be changed from °C to °F by the °C/°F-key.
- Press the MODE-button once in normal mode and the hold-function is activated (indicated by HOLD).
- Press the MODE-button again and the maximum temperature is shown since the last reset (indicated by MAX).
- Press the MODE-button again and the minimum temperature is shown since the last reset (indicated by MIN).
- Press the MODE-button again to return to normal mode.
- To clear the maximum and minimum memory, press and hold the MODE-button for 3 seconds in the corresponding mode while MAX or MIN is displayed (indicated by ---). Press the MODE-button again to return to normal mode.

Battery replacement:

- Replace the battery when the display becomes weak.
 - Use alkaline batteries only. Observe correct polarity. Low batteries should be changed soon to avoid the damage resulting from a leaking battery.
- Batteries contain harmful acids. Wear protective glasses and gloves when handling with leaked batteries.

Attention:

Please do not dispose of old electronic devices and used batteries in household waste. To protect the environment, take them to your retail store or to appropriate collection sites according to national or local regulations.

Maintenance:

- Keep the instrument in a dry place.
- Do not expose the instrument to extreme temperatures, vibration or shock.
- Clean it with a soft, damp cloth. Do not use solvents or scouring agents.
- Please reset the instrument and follow the battery installation procedure if the unit does not work properly. Change the battery.

Intended usage, exclusion of warranty, safety information

- The instrument is not a toy. Keep it out of reach of children.
- The specifications of this instrument may change without prior notice.
- No part of this manual may be reproduced without written consent of Acez Instruments.
- Improper use or unauthorized opening of housing will mean the loss of warranty.

This product fulfills the guidelines according to EN 13485.

Suitability: S, T (Stockage, Transport)

Location: E

Accuracy class: 1

Measuring range: -40°C...+200°C

In accordance with EN 13485, this instrument is subject to regular inspections as per EN 13486 (recommendation: yearly).
