C26 / C26RD	12	3450	15.0	2005 x 615 x 750

Note: RD signifies roller doors included. Sneeze guards cannot be fitted to the vertical control panel side when roller doors installed.

Note: Hot food display bars are suitable for short term food display. They are not a suitable substitute for a chicken humidifier. They are also designed to accommodate pans available from Roband Australia. Although other brands of pans may fit, this is not guaranteed due to variations in other manufacturers' pans. Hot food display bars are designed to be served around and not over. If units are to be used in a serve over capacity, protection from hot surfaces will need to be considered. Environmental influences will affect the operating performance of hot food displays. Consideration should be given to food types, air movement and ambient temperatures before specifying. For dry, fried foods, roller doors are highly recommended.
