The answers to common customer questions.

# Chef Shoe Q&A

## When is the shoe available?

The shoes are currently stocked in our Sydney warehouse ready for immediate dispatch.

## What is the RRP price?

\$110 incl. GST. Log-in to view wholesale price [here](#).

## Is there a minimum order?

There are no minimums.

## What is the Product Code?

CWSH-BLK-shoe size. For example; CWSH-BLK-44 (for size 44).

## Are the marketing resources available?

Yes. Available [here](#).

## Where are they made?

Made in Mexico.

## From what material are they made?

60% recycled PVC.

## Will they shrink?

No. Unlike competitor brands, made from EVA foam which shrinks with heat. Being recycled PVC, these do not shrink.

## Are they non-slip?

Yes. They are slip-resistant to ASTM F2913-17 standard.

## Are they Acid & Oil resistant?

Yes (they won't breakdown from oils & fats).

## What makes them unique?

They have a bonded toe cap lining made from Aramid fibres, used in ballistic body armour, giving them their superior puncture and heat resistance above your foot and toe area.

### **Is the sole and heel glued on? (Will it come off?)**

No, it is not glued. It is polymerized. So it will not fall apart.

### **How quickly do they wear out?**

The sole material is enriched with nitrile; increasing wear resistance and oil resistance. They are built for kitchens, and also ideal for the medical industry.

### **Are they Unisex? How are they sized?**

They have European Unisex sizing. Please refer to the [size chart](#).

### **Do they have half sizes?**

No. They have a double removable footbed to adjust for foot shape, for example, a wider foot.

### **How are they delivered/packaged?**

They come on a plastic shoe hanger keeping them together, so they are easy to hang and display, without the need for additional packaging.
